

ONBOARD360 — Business Requirements Document (BRD)

1. Purpose & Strategic Scope

This document establishes the formal business requirements for the ONBOARD360 Transformation Platform at NovaBank International. The platform targets 60% Straight-Through Processing (STP) for digital retail accounts and an end-to-end cycle time under 24 hours.

2. Core Business Requirements

BR-001 (Sub-24h Cycle Time), BR-002 (60% STP Enablement), BR-003 (Upfront Document Defect Elimination), BR-004 (Fuzzy Watchlist Screening), BR-005 (AI-Assisted Exception Triage), BR-006 (Omnichannel Session Continuity), BR-007 (Proactive Stage Notifications), BR-008 (Cryptographic Audit Logging), BR-009 (Unified Analyst Workbench), BR-010 (Unit Cost Reduction to \$12.55).

3. Acceptance Criteria & Governance

All functional components must achieve 100% bidirectional traceability against the Requirements Traceability Matrix and pass formal UAT sign-off from Retail, Compliance, and Operations leadership.
