

ONBOARD360 — Functional Requirements Document (FRD)

1. System Functional Specifications

Specifies the technical behaviors, API contracts, and validation algorithms: FR-001 (OpenCV WebAssembly image sharpness gating), FR-002 (Cloud OCR expiration parsing), FR-003 (Postal bureau prefill API), FR-010 (Jaro-Winkler sanctions matching), FR-015 (Random Forest exception classification), FR-020 (Redis session persistence), FR-025 (Kafka event notification dispatcher), FR-030 (Core ledger REST provisioning API), FR-035 (Immutable cryptographic audit sink).

2. Non-Functional & Security Requirements

Sub-1,500ms p95 API response latency under 150 TPS load; AES-256 encryption at rest; TLS 1.3 in transit; strict Role-Based Access Control (RBAC); 99.95% high availability SLA.
