

ONBOARD360 — Executive Board Review & Strategic Roadmap

1. Executive Summary & Value Proposition

ONBOARD360 transitions NovaBank from an asynchronous queue-bound operating model to an intelligent, automated onboarding ecosystem. Compressing cycle time to < 24.0 hours, reducing rework by 70%, and achieving 60% STP unlocks \$22.09M in annual net cash savings.

2. Financial Appraisal & ROI

Initial Capital Investment (CAPEX): \$2.85M. 3-Year Net Present Value (NPV @ 8.5%): \$49.50M. Internal Rate of Return (IRR): > 200.0%. Payback Period: 2.0 Months. Unit processing cost falls from \$67.45 to \$12.55 (an 81.4% reduction).

3. 12-Month Phased Rollout Schedule

Month 1-4: Foundation, Computer Vision & RegTech APIs. Month 5-6: AI Triage Engine & Analyst Workbench. Month 7-8: End-to-End Testing & UAT Sign-off. Month 9-10: UK/EU Regional Pilot. Month 11-12: Global Rollout & Decommissioning of legacy queues.
